CENTRE DE PSYCHOLOGIE APPLIQUÉE

48, avenue Victor-Hugo, 75783 Paris Cedex 16

Karl H. PRIBRAM

KARL H. PRIBRAM

KARL H. PRIBRAM

Karl H. PRIBRAM a fait ses études supérieures à l'Université de Chicago, de 1936 à 1938 en Sciences biologiques, et de 1939 à 1941 à l'École de Médecine. Il est de plus, depuis 1948, membre de l'*American Board of Neurological Surgery*.

Les principales étapes de sa carrière sont les suivantes :

- 1946-48 Praticien privé en neurologie et en chirurgie neurologique, à Jacksonville (Floride).
- 1946-48 Neurochirurgien et neurophysiologiste aux *Yerkes Laboratories in Primate Biology*, à Orange Park (Floride).
- 1948-51 Professeur adjoint de recherche, en physiologie et en psychologie, à l'École de Médecine de la *Yale University*, New Haven (Connecticut).
- 1951-58 Professeur dans le même établissement.
Directeur de la recherche et des laboratoires, à l'*Institute of Living* de Hartford (Connecticut).
- 1958-59 Membre du *Center for Advanced Study in the Behavioral Sciences*, de la *Stanford University*, à Stanford (Californie).
- 1959-62 Professeur adjoint, Départements de psychiatrie et de psychologie, de la même université.
- 1962- Professeur, aux Départements de psychologie, et de psychiatrie et des sciences du comportement;
Chef des Laboratoires de neuropsychologie, de la même université.
- 1962- HEW Professor of Neuroscience Career Research Award.

Depuis 1954, Karl H. PRIBRAM a donné des enseignements temporaires dans une douzaine d'établissements d'enseignement supérieur d'Amérique.

Il participe régulièrement au comité de rédaction des publications scientifiques suivantes :

- *Neuropsychologia*,
- *Behavioral Science*,
- *Journal of Mathematical Biology*,
- *Advances in Behavioral Biology*.

En outre, Karl H. PRIBRAM appartient à de nombreuses sociétés savantes :

- American Academy of Arts and Sciences.
- American Association for the Advancement of Science.
- American Physiological Association.
- American Physiological Association (President, Division of Physiological and Comparative Psychology, 1967-68; Chairman, Committee on International Relations in Psychology, 1973-74).
- International Brain Research Organization (IBRO), Central Council.
- The Psychonomic Society.
- International Neuropsychological Society (President, 1967-69).
- Society for Experimental Psychologists.
- Society for Neuroscience.
- International Society for Research on Aggression.
- Sigma Xi.
- American Association of University Professors.
- American Medical Association.

PUBLICATIONS

- Localized sweating as part of a localized convulsive seizure (avec P.C. Bucy). *Arch. Neurol. Psychiat.*, 1943, **50**, 456-461.
- Respiratory and vascular responses in monkeys from temporal pole, insula, orbital surface and cingulate gyrus (avec B.R. KAADA et J.A. EPSTEIN). *J. Neurophysiol.*, 1949, **12**, 347-356.
- Interrelations between orbital gyrus, insula, temporal tip and anterior cingulate gyrus (avec J.F. FULTON, J.A.F. STEVENSON et P. WALL). *Trans. Amer. Neurol. Assoc.*, 1949, 175-179.
- A behavioral analysis of the organization of the parieto-temporo-preoccipital cortex (avec J.S. BLUM et K.L. CHOW). *J. comp. Neurol.*, 1950, **93**, 53-100.
- Some connections of the orbito-fronto-temporal limbic and hippocampal areas of *Macaca Mulatta* (avec M.A. LENNOX et R.H. DUNSMORE). *J. Neurophysiol.* 1950, **13**, 127-135.
- Psychosurgery in midcentury. *Surgery, Gynecology et Obstetrics*, 1950, **91**, 364-367.
- Some physical and pharmacological factors affecting delayed response performance of baboons following frontal lobotomy. *J. Neurophysiol.*, 1950, **13**, 373-382.
- Electro-corticographic effects of stimulation of posterior orbital, temporal and cingulate areas of *Macaca Mulatta* (avec M.A. LENNOX, R.H. DUNSMORE et K.A. EPSTEIN). *J. Neurophysiol.*, 1950, **13**, 383-388.
- Trigeminal neurotomy and blood pressure responses from stimulation of lateral central cortex of *Macaca Mulatta* (avec P.D. WALL). *J. Neurophysiol.*, 1950, **13**, 409-412.

- Some aspects of experimental psychosurgery: The effect of scarring frontal cortex on complex behavior. *Surgical Forum*, 1951, **36**, 315-318.
- Effects on delayed-response performance of lesions of dorsolateral and ventromedial frontal cortex of baboons (avec M. MISHKIN, H.E. ROSVOLD et S.J. KAPLAN). *J. comp. physiol. Psychol.*, 1952, **45**, 565-575.
- Limit and organization of the cortical projection from the medial thalamic nucleus in mokeys (avec K.L. CHOW et J. SEMMES). *J. comp. Neurol.*, 1953, **95**, 433-440.
- Further analysis of the temporal lobe syndrome utilizing fronto-temporal ablations (avec M. BAGSHAW). *J. comp. Neurol.*, 1953, **99**, 347-375.
- Effects of nembutal in baboons with frontal lesions (avec M. MISHKIN et H.E. ROSVOLD). *J. Neurophysiol.*, 1953, **16**, 155-159.
- Action potentials in « motor » cortex evoked by peripheral nerve stimulation (avec L.I. MALIS et L. KRUGER). *J. Neurophysiol.*, 1953, **16**, 161-167.
- Neuronographic analysis of medial and basal cerebral cortex. I. Cat (avec P.D. MACLEAN). *J. Neurophysiol.*, 1953, **16**, 312-323.
- Neuronographic analysis of medial and basal cerebral cortex. II. Monkey (avec P.D. MACLEAN). *J. Neurophysiol.*, 1953, **16**, 324-340.
- Cortical organization in gustation (Macaca Mulatta) (avec M.H. BAGSHAW). *J. Neurophysiol.*, 1953, **16**, 399-508.
- Electrical responses to acoustic clicks in monkeys: Extent of neocortex activated (avec B.S. ROSNER et W.A. ROSENBLITH). *J. Neurophysiol.*, 1954, **17**, 336-344.
- Toward a science of neuropsychology — Method and data. In R.A. PATTON (Ed.) — *Current trends in psychology and the behavioral sciences*. Pittsburgh: Univ. of Pittsburgh Press, 1954, p. 115-142. (Trad. en russe en 1964).
- Functions of the « olfactory » brain (avec L. KRUGER). *Ann. N.Y. Acad. Scien.*, 1954, **58**, 109-138.
- An experimental critique of the effects of anterior cingulate ablations in monkey (avec J.F. FULTON). *Brain*, 1954, **77**, 34-44.
- Visual discrimination performance following partial ablations of the temporal lobe. I. Ventral vs. lateral (avec M. MISHKIN). *J. comp. physiol. Psychol.*, 1954, **47**, 14-20.
- Influence of amydalectomy on social behavior in monkeys (avec H.E. ROSVOLD et A.F. MIRSKY). *J. comp. physiol. Psychol.*, 1954, **47**, 173-178.
- Concerning three rhinencephalic systems. *Electro-enceph. clin. Neurophysiol.*, 1954, **6**, 708-709.
- Simultaneous and successive visual discrimination by monkeys with inferotemporal lesions (avec M. MISHKIN). *J. comp. physiol. Psychol.*, 1955, **48**, 198-202.
- Analysis of the effects of frontal lesions in monkey: I. Variations of delayed alternation (avec M. MISHKIN). *J. comp. physiol. Psychol.*, 1955, **48**, 492-495.

- Lesions of « frontal eye fields » and delayed response of baboons. *J. Neurophysiol.*, 1955, **18**, 105-112.
- The effects of precentral lesions on the behavior of monkeys (avec L. KRUGER, F. ROBINSON et A.J. BERMAN). *Yale J. Biol. Med.*, 1955-56, **28**, 428-443.
- Cortical projection of the thalamic ventrolateral nuclear group in monkeys (avec K.L. CHOW). *J. comp. Neurol.*, 1956, **104**, 37-75.
- Analysis of the effects of frontal lesions in monkey. II. Variation of delayed response (avec M. MISHKIN). *J. comp. physiol. Psychol.*, 1956, **49**, 36-40.
- Analysis of the effects of frontal lesions in monkey. III. Object alternation (avec M. MISHKIN). *J. comp. physiol. Psychol.*, 1956, **49**, 41-45.
- Further behavioral analysis of the parieto-temporo-preoccipital cortex (avec J. BARRY). *J. Neurophysiol.*, 1956, **19**, 99-106.
- The effect on affective and cognitive behavior in the dog of lesions of the pyriform-amygdala-hippocampal complex (avec H.E. ROSVOLD et J.L. FULLER). *J. comp. physiol. Psychol.*, 1957, **50**, 89-96.
- A comparison of the effects of medial and lateral cerebral resections on conditioned avoidance behavior of monkeys (avec L. WEISKRANTZ). *J. comp. physiol. Psychol.*, 1957, **50**, 74-80.
- Effects of cingulectomy on social behavior in monkeys (avec A.J. MIRSKY et H.E. ROSVOLD). *J. Neurophysiol.*, 1957, **20**, 588-601.
- Neocortical function in behavior. In H.F. HARLOW et C.N. WOOLSEY (Eds.). — *Biological and biochemical bases of behavior*. Madison: Univ. of Wisconsin Press, 1958, p. 151-172.
- Comparative neurology and the evolution of behavior. In A. ROE et G.G. SIMPSON (Eds.). — *Behavior and evolution*. New Haven: Yale Univ. Press, 1958, p. 140-164.
- On the neurology of thinking. *Behav. Sci.*, 1959, **4**, 265-287.
- The effect of irritative lesions of the striate cortex on learning of visual discrimination in monkeys (avec M. KRAFT et W.D. OBRIST). *J. comp. physiol. Psychol.*, 1960, **53**, 17-22.
- Effects of epileptogenic lesions in frontal cortex on learning and retention in monkeys (avec J.S. STAMM). *J. Neurophysiol.*, 1960, **23**, 552-563.
- The effects of amygdalectomy in monkeys on transposition along a monkeys (avec M. WILSON et J.S. STAMM). *J. comp. physiol. Psychol., Psychol.*, 1960, **53**, 396-399.
- Deficits in roughness discrimination after posterior parietal lesions in monkeys (avec M. WILSON et J.S. STAMM). *J. comp. Physiol. Psychol.*, 1960, **53**, 535-539.
- The intrinsic systems of the forebrain. In J. FIELD, H.W. MACOUN et V.E. HALL (Eds.). — *Handbook of Physiology, Neurophysiology*, II. Washington: American Physiological Society, 1960, p. 1323-1344.
- A review of theory in physiological psychology. *Annual Review of Psychology*, 1960, **11**, 1-40.
- *Plans and the structure of behavior* (avec G.A. MILLER et E. GALANTER). New York: Holt, Rinehart et Winston, 1960. (Trad. en russe en 1964).

- Regional physiology of the central nervous system (The search of the engram — Decade of decision). In E.A. SPIEGEL (Ed.). — *Progress in neurology and psychiatry*. New York: Grune et Stratton, 1961, p. 45-57.
- Limbic system. In D.E. SHEER (Ed.). — *Electrical stimulation of the brain*. Austin: Univ. of Houston Press, 1961, p. 311-320.
- Implications for systematic studies of behavior. *Ibid.*, p. 563-574.
- A further experimental analysis of the behavioral deficit that follows injury to the primate frontal cortex. *Exp. Neurol.*, 1961, **3**, 432-466.
- Effects of epileptogenic lesions in infero-temporal cortex on learning and retention in monkeys (avec J.S. STAMM). *J. comp. physiol. Psychol.*, 1961, **54**, 614-618.
- Interrelations of psychology and the neurological disciplines. In S. KOCH (Ed.). — *Psychology: A study of a science*. New York: McGraw-Hill Book Company, 1962, p. 119-157.
- The effects of lesions of the medial forebrain on alternation behavior of rhesus monkeys (avec W.A. WILSON et J. CONNORS). *Exp. Neurol.*, 1962, **6**, 36-47.
- An automated discrimination apparatus for discrete trial analysis (DADTA) (avec K.W. GARDNER, G.L. PRESSMAN et M.H. BAGSHAW). *Psychol. Reports*, 1962, **11**, 247-250.
- Serial frozen section of the whole brain (avec G. SHERER). *Psychol. Reports*, 1962, **11**, 209-210.
- Control systems and behavior. In M.A.B. BRAZIER (Ed.). — *Brain behavior*, II. Washington: American Institute of Biological Science, 1962, p. 371-387.
- The neuropsychology of Sigmund Freud. In A.J. BACKRACH (Ed.). — *Experimental foundation of clinical psychology*. New York: Basic Books, 1962, p. 442-468.
- Automated analysis of multiple choice behavior (avec K.L. GARDNER, G.L. PRESSMAN et M.H. BAGSHAW). *J. exp. Analysis of Behav.*, 1963, **6**, 123-124.
- Hippocampectomy and behavior sequences (avec D.P. KIMBLE). *Science*, 1963, **139**, 824-825.
- Reinforcement revisited: A structural view. In M. JONES (Ed.). — *Nebraska symposium on motivation*. Lincoln: Univ. of Nebraska Press, 1963, p. 113-159.
- A neuropsychological model: Some observations on the structure of psychological processes. In P.H. KNAPP (Ed.). — *Expression of the emotions in man*. New York: International Universities Press, 1963, p. 209-229.
- The new neurology: Memory, novelty, thought and choice. In G.H. GLASER (Ed.). — *EEG and behavior*. New York: Basic Books, 1963, p. 149-173.
- Neuropsychology in America. In E. BERELSON (Ed.). — *The behavioral science today*. New York: Basic Books, 1963, p. 101-111.
- An experimental analysis of the behavioral disturbance produced by a left frontal arachnoid endothelioma (meningioma) (avec A.R. LURIA et E.D. HOMSKAYA). *Neuropsychologia*, 1964, **4**, 257-280.

- Facilitation of avoidance behavior in unavoidable shocks in normal and amygdalectomized monkeys (avec E. HEARST). *Psychol. Reports*, 1964, 14, 39-42.
- Appetitive and aversive generalization gradients in normal and amygdalectomized monkeys (avec E. HEARST). *J. comp. physiol. Psychol.*, 1964, 58, 296-298.
- A progress report on the neurological process disturbed by frontal lesions in primates (avec A. AHUMADA, J. HARTOG et L. ROSS). In S.M. WARREN et K. AKERT (Eds.). — *The frontal granular cortex and behavior*. New York: McGraw-Hill Book Company, 1964, p. 28-55.
- Neurological notes on the Art of education. In E. HILGARD (Ed.). — *Theories of learning and instruction* (63rd Yearbook of the National Society for the Study of Education). Chicago: Univ. of Chicago Press, 1964, p. 78-110.
